

CCTV DPA & GDPR Management Pack (10 Incident & 5 DSAR pack)

Digital Evidence System

CCTV Management Pack

CLEAR EVIDENCE

CCTV Management Pack for use under DPA & GDPR guidelines, all you need stored in a ring binder with space to keep all your documentation in one place.

With the implementation of GDPR the Data Controller needs to manage processes which continually review and assess the data collection to ensure it is non intrusive, not excessive, secure, up to date, defined for purpose, controlled and managed with audit trails and documented processes to ensure the data collection and distribution are audit-able and regular checks are being made and monitored over time.
